#### Perfil

I am a tech enthusiast, self-taught software developer. I started my career more than 2 years ago as a website developer and now I have specialized in Frontend and Backend application development.

#### Education

##### Universidad Autónoma De Baja California Sur

Software Engineering

#### Experience

##### Jr-Backend Developer, CFE, La Paz BCS

Jul 2019 – Jul 2020

I worked for CFE for in the distribution area performing maintenance and upgrading various servers and databases

- Executed maintenance responsibilities on a daily basis
- Identified issues with systems and performed repairs to improve operations
- Conducted reports on the condition of servers and users

##### Jr-Backend Developer, Freelance, La Paz BCS

Sep 2020 – Jan 2021

I developed with React E-Commerce interfaces that connect to Firebase to register leads from landing pages. Potential customers.

- implement a Credit card payment with stripe
- Integrate firebase for handling authentication
- Advance CRUD
